School

The school assures the parents that their child will receive an education based on high academic standards and high behavior standards. Teachers are here to teach and students are here to learn. The students will be provided a safe environment with highly qualified teachers, with adequate and appropriate materials. The school will involve parents in all aspects of their child's education.

Parents

Parents are required to sign a parent/school contract which states parents will volunteer 30 minutes each week; parents will be actively involved in the Discipline Plan of the school; students will attend school regularly; parents will emphasize academic excellence. Parents will be involved in all aspects of their child's education.

∨ **Transportation Policy** ∨

Students are transported to and from school by a contracted busing service. Bus service is within neighborhoods where our students live, not door to door. Student behavior standards also apply to their behavior while on the bus.

Retention Rate ⁷	0.8 %	1.5 %	2.1 %	5.2 %
Dropout Rate ⁸	NA			9.5 %
Status Unknown ⁹	NA			6.0 %

Students reported as "dropouts" who may have returned to school for the following academic year are not accounted for in this report.

⁴ Transfers Out: Percentage of accountable students withdrawing to continue studies in another school or to be taught at home for the 2001-02 school year.

⁵ Transfers In: Within District: Percentage of accountable students entering school who were previously enrolled in another Arizona public school within the school district during the 2001-02 school year. Out-of-District: Percentage of accountable students entering school who were previously enrolled in another school district during the 2001-02 school year.

⁶ Promotion Rate: Percentage of students promoted to the next grade or who met graduation requirements and received a traditional diploma at the end of the 2001-02 school year. Percentage includes students who left school at age 22 or who had completed school and received a non-traditional diploma.

⁷ Retention Rate: Percentage of students retained at the end of the 2001-02 school year.

⁸ Dropout Rate: Percentage of students counted as withdrawn due to chronic illness, expulsion or dropping out during the 2000-01 school year, to include activity during the summer of 2001. This rate includes students who were withdrawn after 10 consecutive days of unexcused absences or were coded by the school as "status unknown." The Promotion Rate, Retention Rate, Dropout Rate and Status Unknown Rate may not add to 100% due to the inclusion of summer activity in the Dropout Rate and the Status Unknown Rate but not in the Promotion Rate and Retention Rate. Data for 2001-02 is not yet available.

⁹ Status Unknown: Percentage of students unaccounted for by any method during the 2001-02 school year. Status unknown students are not necessarily dropouts.

∨ Academic Achievement Indicators ∨

The goal of the Arizona Department of Education (ADE) is to improve student achievement. Establishing excellent academic standards and incorporating them in our K-12 school curriculum is crucial to improving teaching and learning. The *Arizona Academic Standards* define what Arizona students should know and be able to do. They provide parents, teachers and students with a clear understanding of what is expected of them.

Because school accountability and reporting of student achievement data also are vital to increase student success, the purpose of the Arizona School Report Card is to provide parents with information on student progress and school performance. The norm-referenced test scores (Stanford 9) on page 6 compare the general performance of students in the same grades across the state. But to determine if students meet specific standards, a criterion-referenced test was developed. *Arizona's Instrument to Measure Standard* (AIMS) measures student performance against the criteria defined in our Arizona Academic Standards.

The state Board of Education selected the standards for reading, writing and mathematics as the basis for AIMS because they form the foundation for all other learning. AIMS will be given annually to students in grades 3, 5, 8 and high school. Statewide administration of AIMS for grades 3, 5 and 8 began in the spring of 2000. The Class of 2006 will be the first to take AIMS reading, writing and mathematics as a requirement for graduation. Students passing AIMS also must meet all school and district requirements to receive an Arizona high school diploma.

Language Arts Standards

READING*(adopted by the State Board of Education July 8, 1996)*

Students learn and effectively apply a variety of reading strategies for comprehending, interpreting and evaluating a wide range of texts including fiction, nonfiction, classic and contemporary works.

WRITING*(adopted by the State Board of Education August 7, 1996)*

Students effectively use written language for a variety of purposes and with a variety of audiences.

Mathematics Standards*(adopted by the State Board of Education August 26, 1996)*

NUMBER SENSE

Students develop number sense and use numbers and number relationships to acquire basic facts, to solve a wide variety of real-world problems, and to determine the reasonableness of results.

DATA ANALYSIS AND PROBABILITY

Students use data collection and analysis, statistics, and probability to make valid inferences, decisions and arguments and to solve a variety of real-world problems.

PATTERNS, ALGEBRA AND FUNCTIONS

Students use algebraic methods to explore, model and describe patterns, relationships and functions involving numbers, shapes, data and graphs within a variety of real-world problem-solving situations.

GEOMETRY

Students use geometric methods, properties and relationships as a means to recognize, draw, describe, connect, and analyze shapes and representations in the physical world.

MEASUREMENT AND DISCRETE MATHEMATICS

Students make and use direct and indirect measurement, metric and U.S. customary, to describe and compare the real world and to prepare for the study of discrete functions, fractals and chaos which have evolved out of the age of technology.

MATHEMATICAL STRUCTURE/LOGIC

Students use both inductive and deductive reasoning as they make conjectures and test the validity of arguments.

∨ Academic Achievement Indicators ∨

Since 1997, students have been tested in reading, language and mathematics using the *Stanford Achievement Test, Ninth Edition*, a standardized, nationally norm-referenced test. Since 1999, all students in grades 2 through 9 have been tested using the Stanford 9, though other grades have been tested in the past (grades 10-12 in 1997 and 1998, grades 10-11 in 1999 and 2000, and grade 1 reading in 2001).

The percentage (%) of eligible students tested and the school's percentile ranks are presented below. State average percentile ranks (AZ) are provided for comparison. Note that the average percentile ranks for the nation are 50 for all content areas in all grades.

Under the Family Educational Rights and Privacy Act of 1974 (FERPA), no individually identifiable references to students may be made. Therefore, items of data containing information about fewer than ten students have been replaced with (**) to protect student privacy. Some columns contain dashes (--) to indicate "not applicable" or "no data available."

∨ Measure of Academic Progress ∨

Arizona's Measure of Academic Progress (MAP) is an indicator of student academic growth from one year to the next. The results are based on the *Stanford Achievement Test, Ninth Edition* (Stanford 9), given in 2001 and 2002. MAP includes only those students who were tested both years in consecutive grade levels at the same school or who started the school year in the same school in which they were tested in 2002. A student achieves One Year's Growth (OYG) if he or she remains in the same Stanine⁹ or advances a Stanine from one year to the next. The percentage of students achieving OYG at the school is reported below.

⁹ Stanines are normalized standard scores that range from a low of 1 to a high of 9, with 5 designating average performance. National Stanines, like National Percentile Ranks, indicate a student's relative standing in the national norm group (Source: Harcourt Educational Measurement).

The MAP is an elementary school (Grades 2-8) indicator only.

∨ School Safety ∨

The purpose of this section is to provide parents information about what the school is doing to promote a safe and healthy learning environment.

School-level Efforts to Ensure a Safe and Healthy Learning Environment

Students and parents are aware of the school's high academic and behavior goals. Parents, teachers, and school administrators work together to maintain a safe environment for students and staff. Parents are involved immediately if a student has behavior problems. Parents, teacher, and school administrator work together to find the solution to student behavior problems.

Total number of incidents that occurred on the school grounds that required the intervention of local, state or federal law enforcement (A.R.S. § 15-746.6)

0

School uniforms are required at this school.

The Arizona Attorney General's Office has a hotline that allows students to report suspicious activities at schools and to get help with potentially violent situations, such as bullying, harassment, hate crimes, discrimination and gangs. The toll-free number, **1-877-900-1086**, is anonymous and available 24 hours a day.

The Arizona School Report Card was prepared by the Arizona Department of Education using a standardized format to combine information provided by the local school with data compiled from state records. Each school has special strengths and needs, and all schools benefit from the active involvement of parents in their children's education. If you have questions about the report card or need more information, contact the school office. Arizona School Report Cards can be found for all schools at www.ade.az.gov/srcs/ on the Internet.
