## ∨ Academic Achievement Indicators ∨

The goal of the Arizona Department of Education (ADE) is to improve student achievement. Establishing excellent academic standards and incorporating them in our K-12 school curriculum is crucial to improving teaching and learning. The *Arizona Academic Standards* define what Arizona students should know and be able to do. They provide parents, teachers and students with a clear understanding of what is expected of them.

Because school accountability and reporting of student achievement data also are vital to increase student success, the purpose of the Arizona School Report Card is to provide parents with information on student progress and school performance. The norm-referenced test scores (Stanford 9) on page 6 compare the general performance of students in the same grades across the state. But to determine if students meet specific standards, a criterion-referenced test was developed. *Arizona's Instrument to Measure Standard* (AIMS) measures student performance against the criteria defined in our Arizona Academic Standards.

The state Board of Education selected the standards for reading, writing and mathematics as the basis for AIMS because they form the foundation for all other learning. AIMS will be given annually to students in grades 3, 5, 8 and high school. Statewide administration of AIMS for grades 3, 5 and 8 began in the spring of 2000. The Class of 2006 will be the first to take AIMS reading, writing and mathematics as a requirement for graduation. Students passing AIMS also must meet all school and district requirements to receive an Arizona high school diploma.

### Language Arts Standards

**READING**(*adopted by the State Board of Education July 8, 1996*)

Students learn and effectively apply a variety of reading strategies for comprehending, interpreting and evaluating a wide range of texts including fiction, nonfiction, classic and contemporary works.

**WRITING**(*adopted by the State Board of Education August 7, 1996*)

Students effectively use written language for a variety of purposes and with a variety of audiences.

### Mathematics Standards(*adopted by the State Board of Education August 26, 1996*)

#### **NUMBER SENSE**

Students develop number sense and use numbers and number relationships to acquire basic facts, to solve a wide variety of real-world problems, and to determine the reasonableness of results.

#### **DATA ANALYSIS AND PROBABILITY**

Students use data collection and analysis, statistics, and probability to make valid inferences, decisions and arguments and to solve a variety of real-world problems.

#### **PATTERNS, ALGEBRA AND FUNCTIONS**

Students use algebraic methods to explore, model and describe patterns, relationships and functions involving numbers, shapes, data and graphs within a variety of real-world problem-solving situations.

#### **GEOMETRY**

Students use geometric methods, properties and relationships as a means to recognize, draw, describe, connect, and analyze shapes and representations in the physical world.

#### **MEASUREMENT AND DISCRETE MATHEMATICS**

Students make and use direct and indirect measurement, metric and U.S. customary, to describe and compare the real world and to prepare for the study of discrete functions, fractals and chaos which have evolved out of the age of technology.

#### **MATHEMATICAL STRUCTURE/LOGIC**

Students use both inductive and deductive reasoning as they make conjectures and test the validity of arguments.

## ∨ Academic Achievement Indicators ∨

Since 1997, students have been tested in reading, language and mathematics using the *Stanford Achievement Test, Ninth Edition*, a standardized, nationally norm-referenced test. Since 1999, all students in grades 2 through 9 have been tested using the Stanford 9, though other grades have been tested in the past (grades 10-12 in 1997 and 1998, grades 10-11 in 1999 and 2000, and grade 1 reading in 2001).

The percentage (%) of eligible students tested and the school's percentile ranks are presented below. State average percentile ranks (AZ) are provided for comparison. Note that the average percentile ranks for the nation are 50 for all content areas in all grades.

Under the Family Educational Rights and Privacy Act of 1974 (FERPA), no individually identifiable references to students may be made. Therefore, items of data containing information about fewer than ten students have been replaced with (\*\*) to protect student privacy. Some columns contain dashes (--) to indicate "not applicable" or "no data available."

∨ **Measure of Academic Progress** ∨

Arizona's Measure of Academic Progress (MAP) is an indicator of student academic growth from one year to the next. The results are based on the *Stanford Achievement Test, Ninth Edition* (Stanford 9), given in 2001 and 2002. MAP includes only those students who were tested both years in consecutive grade levels at the same school or who started the school year in the same school in which they were tested in 2002. A student achieves One Year's Growth (OYG) if he or she remains in the same Stanine<sup>9</sup> or advances a Stanine from one year to the next. The percentage of students achieving OYG at the school is reported below.

<sup>9</sup> Stanines are normalized standard scores that range from a low of 1 to a high of 9, with 5 designating average performance. National Stanines, like National Percentile Ranks, indicate a student's relative standing in the national norm group (Source: Harcourt Educational Measurement).

**The MAP is an elementary school (Grades 2-8) indicator only.**

The Arizona School Report Card was prepared by the Arizona Department of Education using a standardized format to combine information provided by the local school with data compiled from state records. Each school has special strengths and needs, and all schools benefit from the active involvement of parents in their children's education. If you have questions about the report card or need more information, contact the school office. Arizona School Report Cards can be found for all schools at [www.ade.az.gov/srcs/](http://www.ade.az.gov/srcs/) on the Internet.
