1801 East Fir Street Cottonwood, AZ 86326 928-634-7531 www.mingusunion.com

December 27, 2022

Citizens and Governing Board Mingus Union High School District No. 4 1801 East Fir Street Cottonwood, Arizona 86326

State law mandates that school districts required to undergo an annual single audit publish a complete set of financial statements presented in conformity with accounting principles generally accepted in the United States of America and audited in accordance with auditing standards generally accepted in the United States by a certified public accounting firm licensed in the State of Arizona. Pursuant to that requirement, we hereby issue the annual comprehensive financial report of the Mingus Union High School District No. 4 (District) for the fiscal year ended June 30, 2022.

This report consists of management's representations concerning the finances of the District. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the District has established a comprehensive internal control framework that is designed both to protect the District's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the District's financial statements in conformity with accounting principles generally accepted in the United States of America. Because the cost of internal controls should not outweigh their benefits, the District's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free of material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

Superintendent Mr. Mike Westcott 928-634-8640 Governing Board Ms. Carol Anne Teague Mrs. Lori Drake Mr. Anthony Lozano Mr. Stephen Currie Mr. Greg Roeller

Finance Director Ms. Lynn Leonard 928-634-2941 The District's financial statements have been audited by Heinfeld, Meech & Co., P.C., a certified public accounting firm. The goal of the independent audit was to provide reasonable assurance that the financial statements of the District for the fiscal year ended June 30, 2022, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditors concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the District's financial statements for the fiscal year ended June 30, 2022, are fairly presented in conformity with accounting principles generally accepted in the United States of America. The independent auditor's report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the District was part of a broader, federally mandated Single Audit as required by the provisions of the Single Audit Act Amendments of 1996 and Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the District's internal controls and legal requirements involving the administration of federal awards. These reports are available in a separately issued Single Audit Report.

Accounting principles generally accepted in the United States of America require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditors.

PROFILE OF THE DISTRICT

The District is one of 25 public school districts located in Yavapai County, Arizona. It provides a program of public education from ninth through grade twelve, with an estimated current enrollment of 1,149 resident students and 54 students from other local school districts that pay tuition to attend Mingus Union High School giving the district a total enrollment of 1,203. Projected enrollment for fiscal year 2023 includes 1,152 resident students and 50 non-resident students, for a total of 1,202.

The District's Governing Board is organized under Section 15-321 of the Arizona Revised Statutes (A.R.S.). Management of the District is independent of other state or local governments. The County Treasurer collects taxes for the District, but exercises no control over its expenditures/ expenses.

The membership of the Governing Board consists of five members elected by the public. Under existing statutes, the Governing Board's duties and powers include, but are not limited to, the acquisition, maintenance and disposition of school property; the development and adoption of a school program; and the establishment, organization and operation of schools. The Board also has broad financial responsibilities, including the approval of the annual budget, and the establishment of a system of accounting and budgetary controls.

The financial reporting entity consists of a primary government and its component units. A component unit is a legally separate entity that must be included in the reporting entity in conformity with generally accepted accounting principles. The District is a primary government because it is a special-purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state or local governments. Furthermore, there are no component units combined with the District for financial statement presentation purposes, and the District is not included in any other governmental reporting entity. Consequently, the District's financial statements include only the funds of those organizational entities for which its elected governing board is financially accountable. The District's major operations include education, student transportation, construction and maintenance of District facilities, food services, bookstore, and athletic functions.

Mingus Union High School was established through the unification of Cottonwood High School and Mingus High School in 1959.

The District is located in Cottonwood, Arizona. Cottonwood is located about 60 miles south of Flagstaff, Arizona ("Flagstaff") in the Verde Valley, at an elevation of 3,320 feet above sea level. Cottonwood, which was founded in 1879 and incorporated in 1960, is near the geographical center of Arizona and only about 100 miles north of the metropolitan Phoenix area.

The annual expenditure budget serves as the foundation for the District's financial planning and control. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual expenditure budget approved by the District's Governing Board.

The expenditure budget is prepared by fund for all Governmental Funds, and includes function and object code detail for the General Fund and some Special Revenue and Capital Projects Funds. The legal level of budgetary control (that is, the level at which expenditures cannot exceed the appropriated amount) is established at the individual fund level for all funds. Funds that are not required to legally adopt a budget may have over expenditures of budgeted funds. The budget for these funds is simply an estimate and does not prevent the District from exceeding the budget as long as the necessary revenue is earned. The District is not required to prepare an annual budget of revenue; therefore, a deficit budgeted fund balance may be presented. However, this does not affect the District's ability to expend monies.

FACTORS AFFECTING FINANCIAL CONDITION

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the District operates.

Local Economy. The Verde Valley includes about 714 square miles located in the geographic center of Arizona, about 100 miles north of the Phoenix metropolitan area. The Verde River runs through the valley from northwest to southeast and is augmented by flows from Sycamore Canyon, Oak Creek, Beaver Creek and West Clear Creek. The area is unsurpassed in its variety of physical beauty with the red rocks and Mogollon Rim to the north and east and the Black Hills and Mingus Mountain dominating the western and southern portions of the valley.

The City of Cottonwood serves as the trading center for the Verde Valley, with a wide variety of retail establishments, professional services, and manufacturing concerns. Located adjacent to the Verde River at elevations ranging from 3,300 feet to 3,900 feet above sea level it experiences a mild climate which, together with its proximity to an abundance of natural amenities such as the Grand Canyon, Sedona, Dead Horse Ranch State Park, Tuzigoot National Monument and the historic mining communities of Clarkdale and Jerome, continues to attract steady growth and tourism.

The 2020 census shows most of the Verde Valley is growing. As a whole, the Verde Valley has seen an increase of just over 3,000 residents from 2010. The city of Cottonwood has gone from 11,265 in 2010 to 12,029 in 2020.

A few of the major firms represented in Cottonwood include Home Depot, Verde Valley Medical Center, Wal-Mart Stores, Inc., Arizona Public Service, and the City of Cottonwood. In addition, the Verde Valley area provides excellent educational and training opportunities through Yavapai College, consisting of six different campuses and currently serving about 7,500 students each year. The main campus is located approximately 50 miles away in Prescott, Arizona ("Prescott"), while the Verde Valley campus in nearby Clarkdale features a state-of-the-art computer lab, library, and learning center. Northern Arizona University's main campus is located 60 miles away in Flagstaff and has a current enrollment of approximately 30,368 students, including satellite campuses. The University focuses on undergraduate education but offers a wide range of graduate programs as well.

Long-term Financial Planning. As the District started the 2022-23 school year, Mingus Union High School was fully staffed. Over the past couple of years, MUHS has focused on raising salaries and increasing teaching and support staff positions with the goal to provide social and emotional support to students to ensure a safe environment. These past two years the District added three teachers, two security guards, a counselor, an assistant principal, two CTE teacher aides, and a bilingual liaison. This goal aligns with the schools focus on safety for all.

A report issued by the Arizona Auditor General for 2021 ranked Mingus Union High School as 25th out of 208 schools for the highest average teacher salary.

This past year the District has continued to upgrade facilities including the renovation of the kitchen to add new equipment, resurface of the running track, and a state-of-the-art energy management system. Campus wide technology included upgrades to servers and fiber to improve internet connectivity, installation in all classrooms of an audio/visual system and touchscreen interactive televisions, and chrome books for all students. The average age of the District's buildings are 34 years old.

The District ended the year with a substantial carryforward of \$495,000 in the Maintenance & Operation budget, and \$188,000 in the Capital budget. Last year the Teacher Experience Index exceeded 1.0 for the first time in many years resulting in an increase of \$254,000 in funding for fiscal year 2023; based on the latest data this trend continues for fiscal year 2024. At the beginning of 2023 the minimum wage in Arizona is set to increase by \$1.05 to \$13.85. However, due to substantial increases in the classified hourly rate chart and raises for existing staff, this new minimum wage will have zero impact on the District's budget. Financially the District is sound and poised to enter the next year with enough reserves to cover unexpected expenses.

AWARDS AND ACKNOWLEDGMENTS

<u>Awards</u>. The Association of School Business Officials International (ASBO) awarded a Certificate of Excellence in Financial Reporting to the District for its annual comprehensive financial report for the fiscal year ended June 30, 2021. This was the 14th consecutive year that the District has received this prestigious award. In addition, the Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the District for its annual comprehensive financial report for the fiscal year ended June 30, 2021. In order to be awarded these certificates, the District published an easily readable and efficiently organized annual comprehensive financial report. This report satisfied both accounting principles generally accepted in the United States of America and applicable legal requirements.

These certificates are valid for a period of one year only. We believe that our current annual comprehensive financial report continues to meet the programs' requirements and we are submitting it to ASBO and GFOA to determine its eligibility for the fiscal year ended June 30, 2022 certificates.

<u>Acknowledgments</u>. The preparation of the annual comprehensive financial report on a timely basis was made possible by the dedicated service of the entire staff of the business and finance department. Each member of the department has our sincere appreciation for the contributions made in the preparation of this report.

In closing, without the leadership and support of the Governing Board of the District, preparation of this report would not have been possible.

Respectfully submitted,

Mike Westcott Superintendent

Lynn Leonard Business Manager

The Certificate of Excellence in Financial Reporting is presented to

Mingus Union High School District No. 4

for its Annual Comprehensive Financial Report for the Fiscal Year Ended June 30, 2021.

The district report meets the criteria established for ASBO International's Certificate of Excellence in Financial Reporting.

Independent Auditor's Report

Governing Board Mingus Union High School District No. 4

Report on Audit of Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Mingus Union High School District No. 4 (District), as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Mingus Union High School District No. 4, as of June 30, 2022, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of Mingus Union High School District No. 4 and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Change in Accounting Principle

As described in Note 1, the District implemented the provisions of the Governmental Accounting Standards Board (GASB) Statement No. 87, *Leases*, for the year ended June 30, 2022, which represents a change in accounting principle. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for one year beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements. In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, budgetary comparison information, and net pension liability information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The Combining and Individual Fund Financial Statements and Schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Combining and Individual Fund Financial Statements and Schedules information is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the Introductory Section and Statistical Section but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on other work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 27, 2022, on our consideration of Mingus Union High School District No. 4's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Mingus Union High School District No. 4's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Mingus Union High School District No. 4's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A) (Required Supplementary Information) (This page intentionally left blank)

As management of the Mingus Union High School District No. 4 (District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2022. The management's discussion and analysis is presented as required supplementary information to supplement the basic financial statements. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found in the introductory section of this report.

FINANCIAL HIGHLIGHTS

- The District's total net position of governmental activities increased \$1.8 million which represents a 52 percent increase from the prior fiscal year as a result of payment of debt obligations.
- General revenues accounted for \$12.4 million in revenue, or 75 percent of all current fiscal year revenues. Program specific revenue in the form of charges for services and grants and contributions accounted for \$4.1 million or 25 percent of total current fiscal year revenues.
- The District had approximately \$14.7 million in expenses related to governmental activities, an increase of eight percent from the prior fiscal year primarily due to spending COVID-19 relief grant funds.
- Among major funds, the General Fund had \$9.4 million current fiscal year revenues, which primarily consisted of state aid and property taxes, and \$9.3 million in expenditures. The General Fund's fund balance increase from \$795,588 at the prior fiscal year end to \$973,821 at the end of the current fiscal year was primarily due to an increase in revenue due to increased enrollment.

OVERVIEW OF FINANCIAL STATEMENTS

This discussion and analysis are intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business. The accrual basis of accounting is used for the government-wide financial statements.

OVERVIEW OF FINANCIAL STATEMENTS

The statement of net position presents information on all of the District's assets, liabilities, and deferred inflows/outflows of resources with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused compensated absences).

The government-wide financial statements outline functions of the District that are principally supported by property taxes and intergovernmental revenues. The governmental activities of the District include instruction, support services, operation and maintenance of plant services, student transportation services, operation of non-instructional services, and interest on long-term debt.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District are reported as governmental funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements use the modified accrual basis of accounting and focus on near-term inflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

OVERVIEW OF FINANCIAL STATEMENTS

Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General, Other Federal Projects, Civic Center, and Debt Service Funds, all of which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements and schedules.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found immediately following the basic financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's budget process and pension plan. The District adopts an annual expenditure budget for all governmental funds. A schedule of revenues, expenditures and changes in fund balances – budget and actual has been provided for the General, Other Federal Projects, and Civic Center Funds as required supplementary information. Schedules for the pension benefit plans have been provided as required supplementary information.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets and deferred outflows exceeded liabilities and deferred inflows by \$5.4 million at the current fiscal year end.

The largest portion of the District's net position reflects its investment in capital assets (e.g., land and improvements, buildings and improvements, vehicles, furniture and equipment, and construction in progress), less any related outstanding debt used to acquire those assets. The District uses these capital assets to provide services to its students; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of outstanding debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. In addition, a portion of the District's net position represents resources that are subject to external restrictions on how they may be used.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

The following table presents a summary of the District's net position for the fiscal years ended June 30, 2022 and June 30, 2021.

	As of 230, 2022	As of June 30, 2021		
Current and other assets	\$ 4,778,857	\$	2,712,068	
Capital assets, net	16,225,361		16,359,180	
Total assets	 21,004,218		19,071,248	
Deferred outflows	 2,016,277		1,938,800	
Current and other liabilities	452,108		176,088	
Long-term liabilities	 13,593,548		17,207,846	
Total liabilities	 14,045,656		17,383,934	
Deferred inflows	 3,621,782		101,297	
Net position:				
Net investment in capital assets	10,211,422		9,100,228	
Restricted	2,016,204		1,440,791	
Unrestricted	(6,874,569)		(7,016,202)	
Total net position	\$ 5,353,057	\$	3,524,817	

At the end of the current fiscal year, the District reported positive balances in two categories of net position. Unrestricted net position, which is normally used to meet the District's mission, reported a deficit of \$6.9 million due to the District's proportionate share of the state pension plan's unfunded liability. The same situation held true for the prior fiscal year.

The District's financial position is the product of several financial transactions including the net results of activities, the acquisition and payment of debt, the acquisition and disposal of capital assets, and the depreciation of capital assets. The following are significant current year transactions that have had an impact on the Statement of Net Position.

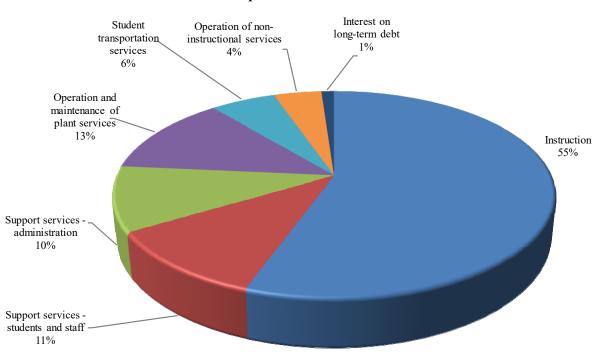

- The principal retirement of \$1.5 million of bonds.
- The decrease of \$2.2 million of pension liabilities.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Changes in net position. The District's total revenues for the current fiscal year were \$16.5 million. The total cost of all programs and services was \$14.7 million. The following table presents a summary of the changes in net position for the fiscal years ended June 30, 2022 and June 30, 2021.

	Fiscal Year Ended June 30, 2022		Fiscal Year Ended June 30, 2021		
Revenues:					
Program revenues:

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Expenses - Fiscal Year 2022

The following are significant current year transactions that have had an impact on the change in net position.

- Operating grants and contributions increased \$917,650 due to increased grant funding related to the COVID-19 pandemic.
- Unrestricted state aid increased \$982,662 due to increased enrollment resulting in increased funding.
- Instruction expenses increased \$565,944 due to increased salaries and benefits rates.

The following table presents the cost of the District's major functional activities. The table also shows each function's net cost (total cost less charges for services generated by the activities and intergovernmental aid provided for specific programs). The net cost shows the financial burden that was placed on the State and District's taxpayers by each of these functions.

Operation of non-instructional								
services		612,129		200,911		444,712		290
Interest on long-term debt		160,716		(160,716)		240,903		(240,903)
Total	\$	14,669,400	\$	(10,543,431)	\$	13,592,605	\$	(10,621,839)

- The cost of all governmental activities this year was \$14.7 million.
- Federal and State governments and charges for services subsidized certain programs with grants and contributions and other local revenues of \$4.1 million.
- Net cost of governmental activities of \$10.5 million was financed by general revenues, which are made up of primarily property taxes of \$7.0 million and state and county aid of \$5.2 million. Investment earnings accounted for \$8,724 of funding.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

The financial performance of the District as a whole is reflected in its governmental funds. As the District completed the year, its governmental funds reported a combined fund balance of \$2.8 million, an increase of \$479,315.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

The General Fund comprises 34 percent of the total fund balance. Approximately \$970,045, or almost 100 percent of the General Fund's fund balance is unassigned.

The General Fund is the principal operating fund of the District. The increase in fund balance of \$178,233 to \$973,821 as of fiscal year end was primarily a result of conservative spending being paid from the General Fund. General fund revenues increased \$753,020 primarily due to increased enrollment. General Fund expenditures increased \$1.0 million primarily due to increased salary and wages and instructional supplies expenditures.

The Other Federal Projects Fund revenues increase of \$370,006 was primarily a result of Federal grants received in response to COVID-19.

The Civic Center Fund revenues increase of \$20,293 was primarily a result of revenues from leases.

The Debt Service Fund revenues decrease of \$192,349 was primarily a result of a decrease of property taxes levied for debt purposes.

BUDGETARY HIGHLIGHTS

Over the course of the year, the District revised the General Fund annual expenditure budget for changes in enrollment. The difference between the original budget and the final amended budget was a \$517,532 increase, or six percent, due to an increase in enrollment.

Significant variances for the final amended budget and actual revenues resulted from the District not being required by the State of Arizona to prepare a revenue budget. A schedule showing the original and final budget amounts compared to the District's actual financial activity for the General Fund is provided in this report as required supplementary information. The significant variance is summarized as follows:

• The favorable variance of \$284,912 in instruction expenditures was primarily due to a budget balance carry forward and costs saving throughout the year.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets. At year end, the District had invested \$35.4 million in capital assets, including school buildings, athletic facilities, buses and other vehicles, computers, and other equipment. This amount represents a net decrease prior to depreciation of \$290,505 from the prior fiscal year. Total depreciation expense for the current fiscal year was \$1.2 million.

CAPITAL ASSETS AND DEBT ADMINISTRATION

The following schedule presents a summary of capital asset balances for the fiscal years ended June 30, 2022 and June 30, 2021.

		As of		As of		
	June 30, 2022		June 30, 2021			
Capital assets - non-depreciable	\$	293,969	\$	30,000		
Capital assets - depreciable, net		15,931,392		16,329,180		
Total	\$	16,225,361	\$	16,359,180		

Additional information on the District's capital assets can be found in Note 7.

Debt Administration. At year-end, the District had \$6.0 million in long-term debt outstanding, \$1.2 million due within one year. Long-term debt decreased by \$1.9 million primarily due to principal retirement.

The District's general obligation bonds are subject to two limits: the Constitutional debt limit (total debt limit) on all general obligation bonds (up to 15 percent of the total net full cash assessed valuation) and the statutory debt limit on Class B bonds (the greater of 10 percent of the net full cash assessed valuation or \$1,500 per student). The current total debt limitation for the District is \$65.4 million and the Class B debt limit is \$43.6 million, which are more than the District's total outstanding general obligation and Class B debt, respectively.

Additional information on the District's long-term debt can be found in Notes 9 through 11.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

Many factors were considered by the District's administration during the process of developing the fiscal year 2022-23 budget. Among them:

- Fiscal year 2021-22 budget balance carry forward (estimated \$320,034).
- District student population (estimated 1,202).
- Employee salaries.
- The impact COVID-19 could have on funding.

Also considered in the development of the budget is the local economy and inflation of the surrounding area.

Budgeted expenditures in the General Fund increased 12 percent to \$10.5 million in fiscal year 2022-23 primarily due to increase of projected enrollment. State aid and property taxes are expected to be the primary funding sources. No new programs were added to the 2022-23 budget.

MINGUS UNION HIGH SCHOOL DISTRICT NO. 4 MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A) YEAR ENDED JUNE 30, 2022

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, and investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the resources it receives. If you have questions about this report or need additional information, contact the Business and Finance Department, Mingus Union High School District No. 4, 1801 East Fir Street, Cottonwood, Arizona 86326.

MINGUS UNION HIGH SCHOOL DISTRICT NO. 4 RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES - GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES YEAR ENDED JUNE 30, 2022

Changes in fund balances - total governmental funds		\$ 479,315
Amounts reported for <i>governmental activities</i> in the Statement of Activities are different because:		
Governmental funds report the portion of capital outlay for capitalized assets as expenditures. However, in the Statement of Activities, the costs of those assets are allocated over their estimated useful lives and reported as depreciation expense.		
Expenditures for capitalized assets Less current year depreciation	\$ 1,112,982 (1,246,801)	(133,819)
Issuance of long-term debt provides current financial resources to governmental funds, but the issuance increases long-term liabilities in the Statement of Net Position.		
Financed purchase agreements		(529,671)
Some revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds.		
Property taxes Intergovernmental	 20,198 69,593	89,791
Repayments of long-term debt principal are expenditures in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position.		
Financed purchase principal retirement Bond principal retirement	 176,339 1,540,000	1,716,339
Governmental funds report pension contributions as expenditures. However, they are reported as deferred outflows of resources in the Statement of Net Position. The change in the net pension liability, adjusted for deferred items, is reported as pension expense in the Statement of Activities.		
Current year pension contributions Pension expense	 860,258 (724,184)	136,074
Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.		
Deferred bond items on issuance of refunding debt	(123,466)	
Amortization of deferred bond items Compensated absences	 181,811 11,866	 70,211
Changes in net position in governmental activities		\$ 1,828,240

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Mingus Union High School District No. 4 (District) have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

During the year ended June 30, 2022, the District implemented the provisions of GASB Statement No. 87, *Leases*. This Statement increases the usefulness of the financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases. The statement establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources. Beginning balances of leases receivable and determined inflows for leases were restated by \$1,272,830 each resulting in no net effect on beginning balances reported in the financial statements due to the implementation of this standard.

The more significant of the District's accounting policies are described below.

A. Reporting Entity

The Governing Board is organized under Section 15-321 of the Arizona Revised Statutes (A.R.S.). Management of the District is independent of other state or local governments. The County Treasurer collects taxes for the District but exercises no control over its expenditures/expenses.

The membership of the Governing Board consists of five members elected by the public. Under existing statutes, the Governing Board's duties and powers include, but are not limited to, the acquisition, maintenance and disposition of school property; the development and adoption of a school program; and the establishment, organization and operation of schools.

The Board also has broad financial responsibilities, including the approval of the annual budget, and the establishment of a system of accounting and budgetary controls.

The financial reporting entity consists of a primary government and its component units. A component unit is a legally separate entity that must be included in the reporting entity in conformity with generally accepted accounting principles. The District is a primary government because it is a special-purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state or local governments.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Furthermore, there are no component units combined with the District for financial statement presentation purposes, and the District is not included in any other governmental reporting entity. Consequently, the District's financial statements include only the funds of those organizational entities for which its elected governing board is financially accountable. The District's major operations include education, student transportation, construction and maintenance of District facilities, food services, bookstore, and athletic functions.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) present financial information about the District as a whole. The reported information includes all of the nonfiduciary activities of the District. For the most part, the effect of internal activity has been removed from these statements. These statements are to distinguish between the governmental and business-type activities of the District. Governmental activities normally are supported by taxes and intergovernmental revenues, and are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. The District does not have any business-type activities or fiduciary activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes, unrestricted federal, state and county aid, and other items not included among program revenues are reported instead as general revenues.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

<u>Government-Wide Financial Statements</u> – The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the grantor or provider have been met. As a general rule, the effect of internal activity has been eliminated from the government-wide financial statements; however, the effects of interfund services provided and used between functions are reported as expenses and program revenues at amounts approximating their external exchange value.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Fund Financial Statements – Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due.

Property taxes, federal, state and county aid, tuition and investment income associated with the current fiscal period are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period. Food services and miscellaneous revenues are not susceptible to accrual because generally they are not measurable until received in cash. Grants and similar awards are recognized as revenue as soon as all eligibility requirements imposed by the grantor or provider have been met. Unearned revenues arise when resources are received by the District before it has legal claim to them, as when grant monies are received prior to meeting all eligibility requirements imposed by the provider.

Delinquent property taxes and other receivables that will not be collected within the available period have also been reported as unavailable revenues on the governmental fund financial statements.

The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column.

The District reports the following major governmental funds:

<u>General Fund</u> – The General Fund is the District's primary operating fund. It accounts for all resources used to finance District maintenance and operation except those required to be accounted for in other funds. The General Fund includes the District's Maintenance and Operation Fund as well as certain activities budgeted in separate funds in accordance with A.R.S. These funds are maintained as separate funds for budgetary purposes but do not meet the criteria for separate reporting in the financial statements.

<u>Other Federal Projects Fund</u> – The Other Federal Projects Fund accounts for financial assistance received for other supplemental federal projects.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

<u>Civic Center Fund</u> – The Civic Center Fund accounts for monies received from the rental of school facilities for civic activities.

<u>Debt Service Fund</u> – The Debt Service Fund accounts for the accumulation of resources for, and the payment of, long-term debt principal, interest and related cost.

D. Cash and Investments

A.R.S. require the District to deposit all cash with the County Treasurer, except as discussed below. Cash with the County Treasurer is pooled for investment purposes, except for cash of the Debt Service and Bond Building Funds that may be invested separately. Interest earned from investments purchased with pooled monies is allocated to each of the District's funds based on their average balances. As required by statute, interest earnings of the Bond Building Fund are recorded initially in that fund, but then transferred to the Debt Service Fund. All investments are stated at fair value.

Statute authorizes the District to separately invest monies of the Bond Building and Debt Service Funds in the State Treasurer's investment pools; obligations issued and guaranteed by the United States or any of its agencies or instrumentalities; specified state and local government bonds and notes; and interest bearing savings accounts or certificates of deposit.

Statute authorizes the District to deposit monies of the Auxiliary Operations and Student Activities Funds in bank accounts. Monies in these funds may also be invested. In addition, statute authorizes the District to maintain various bank accounts such as clearing accounts to temporarily deposit receipts before they are transmitted to the County Treasurer; revolving accounts to pay minor disbursements; and withholdings accounts for taxes and employee insurance programs. Some of these bank accounts may be interest bearing.

Statute does not include any requirements for credit risk, concentration of credit risk, interest rate risk, or foreign currency risk. Arizona statute requires a pooled collateral program for public deposits and a Statewide Collateral Pool Administrator (Administrator) in the State Treasurer's Office. The purpose of the pooled collateral program is to ensure that governmental entities' public deposits placed in participating depositories are secured with collateral of 102 percent of the public deposits, less any applicable federal depository insurance. An eligible depository may not retain or accept any public deposit unless it has deposited the required collateral with a qualified escrow agent or the Administrator. The Administrator manages the pooled collateral program, including reporting on each depository's compliance with the program.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

E. Investment Income

Investment income is composed of interest, dividends, and net changes in the fair value of applicable investments. Investment income is included in other local revenue in the governmental fund financial statements.

F. Receivables and Payables

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Interfund balances between governmental funds are eliminated on the Statement of Net Position.

All receivables, including property taxes receivable, are shown net of an allowance for uncollectibles.

G. Property Tax Calendar

The County Treasurer is responsible for collecting property taxes for all governmental entities within the county. The county levies real and personal property taxes on or before the third Monday in August that become due and payable in two equal installments. The first installment is due on the first day of October and becomes delinquent after the first business day of November. The second installment is due on the first day of March of the next year and becomes delinquent after the first business day of May.

Pursuant to A.R.S., a lien against assessed real and personal property attaches on the first day of January preceding assessment and levy; however according to case law, an enforceable legal claim to the asset does not arise.

H. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. Prepaid items are recorded as expenses when consumed in the government-wide financial statements and as expenditures when purchased in the fund financial statements.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

I. Capital Assets

Capital assets, which include land and improvements; buildings and improvements; vehicles, furniture, and equipment; and construction in progress, are reported in the government-wide financial statements.

Capital assets are defined by the District as assets with an initial, individual cost in excess of \$5,000 and an estimated useful life of more than one year. Capital assets are recorded at historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Land improvements	5-50 years
Buildings and improvements	5-50 years
Vehicles, furniture and equipment	5-25 years

J. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position may report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position may report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time.

K. Compensated Absences

The District's employee vacation and sick leave policies generally provide for granting vacation and sick leave with pay in varying amounts. Only benefits considered vested are recognized in the financial statements. The liability for vacation and sick leave is reported in the government-wide financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee leave, resignations and retirements. Generally, resources from the General Fund are used to pay for compensated absences.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

L. Leases

As lessor, the District recognizes lease receivables with an initial, individual value of \$9,000 or more. If there is no stated rate in the lease contract (or if the stated rate is not the rate the District charges the lessee) and the implicit rate cannot be determined, the District uses an interest rate based on the Applicable Federal Rate as the discount rate to measure lease receivables.

M. Pensions

For purposes of measuring the net pension liability, related deferred outflows of resources and deferred inflows of resources, and pension expense, information about the pension plan's fiduciary net position and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by the plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

N. Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities on the statement of net position. Bond premiums and discounts are amortized over the life of the bonds using the straight-line method. Deferred amounts on refunding result from the difference between the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

O. Interfund Activity

Flows of cash from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers between governmental funds are eliminated in the Statement of Activities. Interfund transfers in the fund financial statements are reported as other financing sources/uses in governmental funds.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

P. Net Position Flow Assumption

In the government-wide fund financial statements the District applies restricted resources first when outlays are incurred for purposes for which either restricted or unrestricted amounts are available.

Q. Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

NOTE 2 – FUND BALANCE CLASSIFICATIONS

Fund balances of the governmental funds are reported separately within classifications based on a hierarchy of the constraints placed on the use of those resources. The classifications are based on the relative strength of the constraints that control how the specific amounts can be spent. The classifications are nonspendable, restricted, and unrestricted, which includes committed, assigned, and unassigned fund balance classifications.

Nonspendable. The nonspendable fund balance classification includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact.

Restricted. Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions or enabling legislation.

NOTE 2 – FUND BALANCE CLASSIFICATIONS

Committed. The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by formal action of the Governing Board. Those committed amounts cannot be used for any other purpose unless the Governing Board removes or changes the specified use by taking the same type of action it employed to previously commit those amounts. The District does not have a formal policy or procedures for the utilization of committed fund balance, accordingly, no committed fund balance amounts are reported.

Assigned. Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the General Fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the General Fund, assigned amounts represent intended uses established by the Governing Board or a management official delegated that authority by the formal Governing Board action. The District does not have a formal policy or procedures for the utilization of assigned fund balance, accordingly, no assigned fund balance amounts are reported.

Unassigned. Unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The District applies restricted resources first when outlays are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

NOTE 2 – FUND BALANCE CLASSIFICATIONS

The table below provides detail of the major components of the District's fund balance classifications at year end. Voter approved initiatives include monies restricted in the Classroom Site and Instructional Improvement funds.

	(General Fund	Other Federal Projects Fund		Civic Center Fund	Debt Service Fund	Non-Major overnmental Funds
Fund Balances:							
Restricted:							
Debt service	\$			\$		\$ 160,894	\$
Capital projects							151,975
Voter approved initiatives							522,822
Federal and state projects			13,60	l			8,729
Food service							133,720
Civic center					139,755		
Community school							55,179
Extracurricular activities							189,062
Gifts and donations							123,933
Insurance refund							102,170
Career technical education							136,084
Intergovernmental agreements							32,201
Student activities							160,888
Other purposes		3,776					
Unassigned		970,045					(81,020)
Total fund balances	\$	973,821	\$ 13,60	1 \$	139,755	\$ 160,894	\$ 1,535,743

NOTE 3 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

<u>Individual Deficit Fund Balance</u> – At year end, the following non-major governmental funds reported deficits in fund balance.

	Deficit
Non-Major Governmental Funds:	
Title I Grants	\$ (70,889)
Title IV Grants	(1,792)
Vocational Education	(8,339)

The deficits arose because of operations during the year. Additional revenues received in fiscal year 2022-23 are expected to eliminate the deficit.

Excess Expenditures Over Budget – At year end, the District had expenditures in funds that exceeded the budgets, however, this does not constitute a violation of any legal provisions.

NOTE 4 – CASH AND INVESTMENTS

Custodial Credit Risk – *Deposits*. Custodial credit risk is the risk that in the event of bank failure the District's deposits may not be returned to the District. The District does not have a deposit policy for custodial credit risk. At year end, the carrying amount of the District's deposits was \$356,841 and the bank balance was \$379,346. At year end, \$129,346 of the District's deposits were covered by collateral held by the pledging financial institution in the District's name.

Fair Value Measurements. The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset.

- Level 1 inputs are quoted prices in active markets for identical assets
- Level 2 inputs are significant other observable inputs
- Level 3 inputs are significant unobservable inputs

The County Treasurer's pool is an external investment pool with no regulatory oversight. The pool is not required to register (and is not registered) with the Securities and Exchange Commission. The fair value of each participant's position in the County Treasurer investment pool approximates the value of the participant's shares in the pool and the participants' shares are not identified with specific investments. Participants in the pool are not required to categorize the value of shares in accordance with the fair value hierarchy.

At year end, the District's investments consisted of the following:

	Average Maturities	H	Fair Value
County Treasurer's investment pool	1.95 years	\$	2,530,975

Interest Rate Risk. The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk. The District has no investment policy that would further limit its investment choices. As of year end, the District's investment in the County Treasurer's investment pool did not receive a credit quality rating from a national rating agency.

Custodial Credit Risk – Investments. The District's investment in the County Treasurer's investment pool represents a proportionate interest in the pool's portfolio; however, the District's portion is not identified with specific investments and is not subject to custodial credit risk.

NOTE 5 – RECEIVABLES

Receivable balances, net of allowance for uncollectibles, have been disaggregated by type and presented separately in the financial statements with the exception of due from governmental entities. Due from governmental entities, net of allowance for uncollectibles, as of year end for the District's non-major governmental funds in the aggregate were as follows:

			N	lon-Major
	Oth	er Federal	Go	vernmental
	Pro	jects Fund		Funds
Due from other governmental entities:				
Due from federal government	\$	309,892	\$	104,671
Due from state government				30,770
Net Due from other governmental entities:	\$	309,892	\$	135,441

NOTE 6 – LEASES RECEIVABLE

The District has entered into contracts to provide land for two cell phone towers under the provisions of contracts classified as leases. The related receivables under the lease agreements have been recorded at the present value of their future minimum lease payments as of the inception date. Lease revenue of \$36,225 is recorded as other local revenue in the Civic Center Fund.

Future minimum lease payments to be received under the leases agreement at year end are summarized as follows:

Year ending June	30:	
-	2023	\$ 37,312
	2024	38,431
	2025	39,584
	2026	40,772
	2027	41,995
	2028-32	177,109
	2033-37	120,458
	2038-42	139,646
	2043-47	161,886
	2048-52	187,671
	2053-57	217,562
	2058-59	 96,435
Total		\$ 1,298,861

NOTE 7 – CAPITAL ASSETS

A summary of capital asset activity for the current fiscal year follows:

Governmental Activities	Beginning Balance	Increase	Decrease	Ending Balance
Capital assets, not being depreciated:				
Land	\$ 30,000	\$	\$	\$ 30,000
Construction in progress		263,969		263,969
Total capital assets, not being depreciated	30,000	263,969		293,969
Capital assets, being depreciated:				
Land improvements	2,546,417	557,853	1,283,640	1,820,630
Buildings and improvements	27,150,340		3,004	27,147,336
Vehicles, furniture and equipment	5,938,646	291,160	116,843	6,112,963
Total capital assets being depreciated	35,635,403	849,013	1,403,487	35,080,929
Less accumulated depreciation for:				
Land improvements	(2,032,249)	(39,847)	(1,283,640)	(788,456)
Buildings and improvements	(14,750,233)	(785,482)	(3,004)	(15,532,711)
Vehicles, furniture and equipment	(2,523,741)	(421,472)	(116,843)	(2,828,370)
Total accumulated depreciation	(19,306,223)	(1,246,801)	(1,403,487)	(19,149,537)
	16220100			1.5.001.000
Total capital assets, being depreciated, net	16,329,180	(397,788)	. <u></u>	15,931,392
Governmental activities capital assets, net	<u>\$ 16,359,180</u>	<u>\$ (133,819)</u>	\$	\$16,225,361

Depreciation expense was charged to governmental functions as follows:

Instruction	\$	704,794
Support services – students and staff		26,580
Support services – administration		14,029
Operation and maintenance of plant services		318,101
Student transportation services		176,727
Operation of non-instructional services		6,570
Total depreciation expense – governmental activities	\$ 1	1,246,801

<u>Construction Commitments</u> – At year end, the District had contractual commitments related to various capital projects for the construction of various building improvements. At year end the District had spent \$263,969 on the projects and had estimated remaining contractual commitments of \$54,900. These projects are being funded with federal grant monies and Unrestricted Capital Outlay funds.

NOTE 8 – SHORT TERM DEBT –REVOLVING LINE OF CREDIT

The District has a revolving line of credit to provide cash flow during the year to mitigate the impact of timing differences of expenditures and the receipt of state aid and property tax revenues. At year end, the District had \$1.5 million in unused line of credit.

NOTE 9 – FINANCED PURCHASES PAYABLE

The District has constructed energy efficiency upgrades and acquired athletic turf installation under the provisions of contracts classified as financed purchases payables. In accordance with GASB Statement No. 87 *Leases,* contracts previously recorded as capital leases have been reclassified as financed purchases payable in the fiscal year. Revenues from the Unrestricted Capital Outlay Fund, a non-major governmental fund, are used to pay the debt obligations.

Annual debt service requirements to maturity on financed purchases payable at year end are summarized as follows:

		G	Governmental Activities			
Year ending Jun	e 30:	Principal Interest		nterest		
-	2023	\$	168,775	\$	22,899	
	2024		172,967		18,708	
	2025		177,270		14,405	
	2026		181,688		9,987	
	2027		72,972		5,450	
	2028-32		284,598		9,483	
Total		\$	1,058,270	\$	80,932	

NOTE 10 – GENERAL OBLIGATION BONDS PAYABLE

Bonds payable at year end consisted of the following outstanding general obligation bonds. The bonds are both callable and noncallable with interest payable semiannually. Property taxes from the Debt Service Fund are used to pay bonded debt. The District's legal debt limit is \$65.4 million and the available margin is \$60.7 million.

Purpose	Original Amount Issued	Interest Rates	Outstanding Remaining Principal Due Maturities June 30, 2022 On			
Governmental activities: General obligation bonds: School Improvement Bonds, Project of 2015, Series A (2016)	\$ 5,990,000	2.5-4.0%	7/1/23-35	\$ 4,755,00	0 \$ 1,000,000	

NOTE 11 – CHANGES IN LONG-TERM LIABILITIES

Long-term liability activity for the current fiscal year was as follows:

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Governmental activities:					
Bonds payable:					
General obligation bonds	\$ 6,295,000	\$	\$ 1,540,000	\$ 4,755,000	\$ 1,000,000
Premium	382,480		181,811	200,669	
Total bonds payable	6,677,480		1,721,811	4,955,669	1,000,000
Financed purchases payable	704,938	529,671	176,339	1,058,270	168,775
Net pension liability	9,657,802		2,233,953	7,423,849	
Compensated absences payable	167,626	81,938	93,804	155,760	23,364
Governmental activity long-term					
liabilities	\$ 17,207,846	\$ 611,609	\$ 4,225,907	\$ 13,593,548	\$ 1,192,139

NOTE 12 – INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

At year end, interfund balances were as follows:

Due to/from other funds – At year end, the Other Federal Projects Fund, and several nonmajor governmental funds had negative cash balances of \$31,138 and \$75,251, respectively, for a total of \$106,389 in the Treasurer's pooled cash accounts. Negative cash on deposit with the County Treasurer was reduced by interfund borrowing with the General Fund. All interfund balances are expected to be paid within one year.

Interfund transfers – Transfers of \$17,784 and \$94,975 between the Other Federal Projects Fund, a major fund, and several non-major governmental funds, respectively, to the General Fund were used to move (1) federal grant funds restricted for indirect costs and (2) to closeout certain grant funds.

NOTE 13 – CONTINGENT LIABILITIES

<u>**Compliance**</u> – Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures/expenses that may be disallowed by the grantor cannot be determined at this time, although the District expects such amounts, if any, to be immaterial.

NOTE 14 – PRIOR PERIOD ADJUSTMENT

The July 1, 2021, fund balance of the General Fund and Unrestricted Capital Outlay Fund, a non-major governmental fund, do not agree to the prior year financial statements due to a reclassification of prior year's revenues that were not properly allocated.

	Government	Governmental Activities			
		Non-Major			
	General	Governmental			
	Fund	Funds			
Fund balance, June 30, 2021, as					
previously reported	\$ 1,245,588	\$ 856,577			
Reclassification of funds	(450,000)	450,000			
Fund balance, July 1, 2021, as restated	\$ 795,588	\$ 1,306,577			

NOTE 15 – RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

The District was unable to obtain general property and liability insurance at a cost it considered to be economically justifiable. Therefore, the District joined the Arizona School Risk Retention Trust, Inc. (ASRRT). ASRRT is a public entity risk pool currently operating as a common risk management and insurance program for school districts and community colleges in the state. The District pays an annual premium to ASRRT for its general insurance coverage. The agreement provides that ASRRT will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of specified amounts.

The District joined the Arizona School Alliance for Workers' Compensation, Inc. (Alliance) together with other school districts in the state for risks of loss related to workers' compensation claims. The Alliance is a public entity risk pool currently operating as a common risk management and insurance program for school districts in the state. The District pays quarterly premiums to the Alliance for its employee workers' compensation coverage. The agreement provides that the Alliance will be self-sustaining through members' premiums and will reinsure through commercial companies for claims in excess of specified amounts for each insured event.

The District's employees have health and accident insurance coverage with Kairos Health Arizona, Inc. Kairos is a public entity risk pool currently operating as a common risk management and insurance program for school districts in the state. The District pays a monthly premium to Kairos for employees' health and accident insurance coverage. The agreement provides that Kairos will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of specified amounts.

NOTE 16 – PENSIONS

Plan Description. District employees participate in the Arizona State Retirement System (ASRS). The ASRS administers a cost-sharing multiple-employer defined benefit pension plan, a cost-sharing multiple-employer defined benefit health insurance premium benefit (OPEB) plan, and a cost-sharing multiple-employer defined benefit long-term disability (OPEB) plan. The Arizona State Retirement System Board governs the ASRS according to the provisions of A.R.S. Title 38, Chapter 5, Articles 2 and 2.1. ASRS is a component unit of the State of Arizona. The ASRS issues a publicly available financial report that includes its financial statements and required supplementary information. The report is available on the ASRS website at <u>www.azasrs.gov</u>.

The ASRS OPEB plans are not further disclosed because of their relative insignificance to the District's financial statements.

Benefits Provided. The ASRS provides retirement, health insurance premium supplement, long-term disability, and survivor benefits. State statute establishes benefit terms. Retirement benefits are calculated on the basis of age, average monthly compensation, and service credit as follows:

	Retirement Initial Membership Date:					
	Before July 1, 2011	On or After July 1, 2011				
Years of service and	Sum of years and age equals 80	30 years, age 55				
age required to	10 years, age 62	25 years, age 60				
receive benefit	5 years, age 50*	10 years, age 62				
	Any years, age 65	5 years, age 50*				
		Any years, age 65				
Final average salary is based on	Highest 36 months of last 120 months	Highest 60 months of last 120 months				
Benefit percent per year of service	2.1% to 2.3%	2.1% to 2.3%				
	*With actuarially reduced benefi	ts				

Retirement benefits for members who joined the ASRS prior to September 13, 2013, are subject to automatic cost-of-living adjustments based on excess investment earnings. Members with a membership date on or after September 13, 2013, are not eligible for cost-of-living adjustments. Survivor benefits are payable upon a member's death. For retired members, the survivor benefit is determined by the retirement benefit option chosen. For all other members, the beneficiary is entitled to the member's account balance that includes the member's contributions and employer's contributions, plus interest earned.

NOTE 16 – PENSIONS

Contributions. In accordance with state statutes, annual actuarial valuations determine active member and employer contribution requirements. The combined active member and employer contribution rates are expected to finance the costs of benefits employees earn during the year, with an additional amount to finance any unfunded accrued liability. For the current fiscal year, active ASRS members were required by statute to contribute at the actuarially determined rate of 12.41 percent (12.22 percent for retirement and 0.19 percent for long-term disability) of the members' annual covered payroll, and the District was required by statute to contribute at the actuarially determined rate of 12.41 percent (12.01 percent for retirement, 0.21 percent for health insurance premium benefit, and 0.19 percent for long-term disability) of the active members' annual covered payroll. The District's contributions to the pension plan for the year ended June 30, 2022 were \$860,258.

Employers are also required to pay an Alternate Contribution Rate (ACR), for retired members who return to work in positions that would typically be fill6ed by an employee who contributes to ASRS. The District was required by statute to contribute at the actuarially determined rate of 10.22 percent (10.13 for retirement and 0.09 percent for long-term disability). ACR contributions are included in employer contributions presented above.

The District's pension plan contributions are paid by the same funds as the employee's salary, with the largest component coming from the General Fund.

Pension Liability. The net pension liability was measured as of June 30, 2021. The total liability used to calculate the net liability was determined using update procedures to roll forward the total liability from an actuarial valuation as of June 30, 2020, to the measurement date of June 30, 2021. The District's proportion of the net liability was based on the District's actual contributions to the applicable plan relative to the total of all participating employers' contributions to the plan for the year ended June 30, 2021. The total liabilities as of June 30, 2021, reflect changes in actuarial assumptions based on the results of an actuarial experience study for the 5-year period ended June 30, 2020, including decreasing the discount rate from 7.5 percent to 7.0 percent and changing the projected salary increases from 2.7-7.2 percent to 2.9-8.4 percent.

At June 30, 2022, the District reported the following amounts for its proportionate share of the pension plan net liability. In addition, at June 30, 2021, the District's percentage proportion for the plan and the related change from its proportion measured as of June 30, 2020 was:

	Net	District	Increase
Liability		% Proportion	(Decrease)
\$	7,423,849	0.057	0.001

NOTE 16 – PENSIONS

Pension Expense and Deferred Outflows/Inflows of Resources. The District has deferred outflows and inflows of resources related to the net pension liability. Certain changes in the net pension liability are recognized as pension expense over a period of time rather than the year of occurrence. The District's pension expense for the year ended June 30, 2022 was \$724,184.

The District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources		Deferred Inflows of Resources
Differences between expected and actual experience	\$	113,170	\$
Changes of assumptions or other inputs		966,273	
Net difference between projected and actual earnings			
on pension investments			2,352,137
Changes in proportion and differences between			
contributions and proportionate share of contributions		76,576	47,982
Contributions subsequent to the measurement date		860,258	
Total	\$	2,016,277	\$ 2,400,119

The amounts of deferred outflows of resources resulting from contributions subsequent to the measurement date as reported in the table above will be recognized as an adjustment of the net pension liability in the year ended June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30:							
2023	\$	22,059					
2024		62,931					
2025		(518,526)					
2026		(810,564)					

NOTE 16 – PENSIONS

Actuarial Assumptions. The significant actuarial assumptions used to measure the total pension liability are as follows:

Actuarial valuation date	June 30, 2020
Actuarial roll forward date	June 30, 2021
Actuarial cost method	Entry age normal
Investment rate of return	7.0%
Inflation	2.3%
Projected salary increases	2.9-8.4%
Permanent base increases	Included
Mortality rates	2017 SRA Scale U-MP

The actuarial assumptions used in the June 30, 2020 valuation were based on the results of an actuarial experience study for the five-year period ended June 30, 2020. The purpose of the experience study was to review actual experience in relation to the actuarial assumptions in effect. The ASRS Board adopted the experience study recommended changes which were applied to the June 30, 2020, actuarial valuation.

The long-term expected rate of return on ASRS plan investments was determined to be 7.0 percent using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage, excluding any expected inflation.

The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

		Long-Term
		Expected
	Target	Geometric Real
Asset Class	Allocation	Rate of Return
Equity	50%	4.90%
Credit	20	5.20
Interest rate sensitive bonds	10	0.70
Real estate	20	5.70
Total	100%	

NOTE 16 – PENSIONS

Discount Rate. The discount rate used to measure the total pension liability was 7.0 percent. The discount rate was lowered in the roll forward for the year June 30, 2021 from 7.5 percent, which was used for the actuarial assumptions at the valuation date. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be made based on the actuarially determined rates based on the ASRS Board's funding policy, which establishes the contractually required rate under Arizona statute. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate. The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.0 percent, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

		Current						
	1%	1% Decrease		Discount Rate		1% Increase		
Rate		6.0%		7.0%		8.0%		
Net liability	\$	11,677,093	\$	7,423,849	\$	3,877,821		

Pension Plan Fiduciary Net Position. Detailed information about the pension plan's fiduciary net position is available in the separately issued ASRS financial report. The report is available on the ASRS website at <u>www.azasrs.gov</u>.

MINGUS UNION HIGH SCHOOL DISTRICT NO. 4 NOTES TO REQUIRED SUPPLEMENTARY INFORMATION JUNE 30, 2022

NOTE 1 – BUDGETARY BASIS OF ACCOUNTING

The District budget is prepared on a basis consistent with accounting principles generally accepted in the United States of America, except for the following item.

- Certain activities reported in the General Fund are budgeted in separate funds in accordance with Arizona Revised Statutes.
- Employee insurance expenditures are budgeted in the year the employee insurance account is funded.

The following schedule reconciles expenditures and fund balances at the end of year.

				Fund	
		Total	Balances		
	Ez	xpenditures	End of Year		
Statement of Revenues, Expenditures and Changes in					
Fund Balances – Governmental Funds	\$	9,336,846	\$	973,821	
Activity budgeted as special revenue funds		(321,125)		(630,741)	
Employee insurance account		(5,335)		(61,133)	
Schedule of Revenues, Expenditures and Changes in					
Fund Balances – Budget and Actual – General Fund	\$	9,010,386	\$	281,947	

NOTE 2 – PENSION PLAN SCHEDULES

Actuarial Assumptions for Valuations Performed. The information presented in the required supplementary schedules was determined as part of the actuarial valuations at the dates indicated, which is the most recent actuarial valuation. The actuarial assumptions used are disclosed in the notes to the financial statements.

Factors that Affect Trends. The actuarial assumptions used in the June 30, 2020, valuation were based on the results of an actuarial experience study for the five-year period ended June 30, 2020. The purpose of the experience study was to review actual experience in relation to the actuarial assumptions in effect. The ASRS Board adopted the experience study recommended changes which were applied to the June 30, 2020, actuarial valuation. The total liabilities as of June 30, 2021, reflect changes in actuarial assumptions based on the results of an actuarial experience, including decreasing the discount rate from 7.5 percent to 7.0 percent and changing the projected salary increases from 2.7-7.2 percent to 2.9-8.4 percent.

SPECIAL REVENUE FUNDS

<u>Classroom Site</u> - to account for the financial activity for the portion of state sales tax collections and permanent state school fund earnings as approved by the voters in 2000.

Instructional Improvement - to account for the activity of monies received from gaming revenue.

English Language Learner - to account for monies received to provide for the incremental cost of instruction to English language learners.

<u>**Title I Grants**</u> – to account for financial assistance received for the purpose of improving the teaching and learning of children failing, or most at-risk of failing, to meet challenging state academic standards.

<u>**Professional Development and Technology Grants</u> - to account for financial assistance received to increase student academic achievement through improving teacher quality.</u>**

<u>Title IV Grants</u> - to account for financial assistance received for chemical abuse awareness programs and expanding projects that benefit educational and health needs of the communities.

Indian Education - to account for financial assistance received for Indian education at preschool, elementary, secondary and adult levels.

<u>Special Education Grants</u> - to account for supplemental financial assistance received to provide a free, appropriate public education to disabled children.

Vocational Education - to account for financial assistance received for preparation of individuals for employment or advancement in a career not requiring a baccalaureate or advanced degree.

<u>Homeless Education</u> – to expand and improve systems to identify and support children and youth experiencing homelessness, and respond to the heightened needs and challenges in the wake of the COVID-19 pandemic.

<u>National Forest Fees</u> - to account for monies allocated for the purposes of benefiting public schools and public roads in counties where forests are situated.

<u>State Vocational Education</u> - to account for financial assistance received for the preparation of individuals for employment.

<u>College Credit Exam Incentives</u> - to account for financial assistance received for college credit exams.

<u>Other State Projects Fund</u> - to account for financial assistance received for other state projects.

<u>School Plant</u> - to account for proceeds from the sale or lease of school property.

Food Service - to account for the financial activity of school activities that have as their purpose the preparation and serving of regular and incidental meals and snacks in connection with school functions.

<u>Community School</u> - to account for activity related to academic and skill development for all citizens.

<u>Auxiliary Operations</u> - to account for activity arising from bookstore, athletic and miscellaneous District related operations.

Extracurricular Activities Fees Tax Credit - to account for activity related to monies collected in support of extracurricular activities to be taken as a tax credit by the tax payer in accordance with A.R.S. §43-1089.01.

<u>Gifts and Donations</u> - to account for activity related to gifts, donations, bequests and private grants made to the District.

Insurance Proceeds - to account for the monies received from insurance claims.

Litigation Recovery - to account for monies received for and derived from litigation.

Indirect Costs - to account for monies received from federal projects for administrative costs.

Insurance Refund - to account for insurance premium payments that are refunded to the District.

<u>Career Technical Education</u> - to account for monies received from Career Technical Education Districts for vocational education programs.

<u>Arizona Industry Credentials Incentive</u> - to account for incentive monies for career technical education courses or programs that provide a certification, credential, or license.

Intergovernmental Agreements - to account for financial activities relating to agreements with other governments not required to be accounted for elsewhere.

<u>Student Activities</u> - to account for monies raised by students to finance student clubs and organizations.

STATISTICAL SECTION

The statistical section presents financial statement trends as well as detailed financial and operational information not available elsewhere in the report. The statistical section is intended to enhance the reader's understanding of the information presented in the financial statements, notes to the financial statements, and other supplementary information presented in this report. The statistical section is comprised of the five categories of statistical information presented below.

Financial Trends

These schedules contain information on financial trends to help the reader understand how the District's financial position and financial activities have changed over time.

Revenue Capacity

These schedules contain information to help the reader assess the factors affecting the District's ability to generate revenue.

Debt Capacity

These schedules present information to help the reader evaluate the District's current levels of outstanding debt as well as assess the District's ability to make debt payments and/or issue additional debt in the future.

Demographic and Economic Information

These schedules present various demographic and economic indicators to help the reader understand the environment in which the District's financial activities take place and to help make comparisons with other school districts.

Operating Information

These schedules contain information about the District's operations and various resources to help the reader draw conclusions as to how the District's financial information relates to the services provided by the District.

Note: For locally assessed property (i.e., excluding mines, utilities, etc.) Proposition 117, approved by voters in 2012, amended the Arizona Constitution to require that all property taxes after fiscal year 2014-15 be based upon property values limited to 5 percent in annual growth. The aggregate assessed value of all taxable properties within a taxing jurisdiction (i.e., after applying assessment ratios based on the use of a property), including property values with a growth limit, is currently referred to as net limited assessed value and formerly as primary assessed value. In accordance with Proposition 117, this value is used for all taxing purposes beginning fiscal year 2015-16. Aggregate assessed value without a growth limit is currently referred to as net full cash assessed value and formerly as secondary assessed value. This remains the value utilized for determining debt capacity limits.

Source: The source of this information is the State and County Abstract of the Assessment Roll, Arizona Department of Revenue.

Note: On November 6, 2012, voters approved Proposition 117, an amendment to the Arizona Constitution. Beginning with Tax Year 2015 (Fiscal Year 2016), both primary and secondary taxes are levied against the net limited assessed value. Primary taxes are used for general District operations. Secondary taxes are used to service District bonded debt requirements and other voter-approved overrides

ote: On November 6, 2012, voters approved Proposition 117, an amendment to the Arizona Constitution. Beginning with Tax Year 2015 (Fiscal Year 2016), both primary and secondary taxes are levied against the net limited assessed value. The net full cash assessed value is used for determining the District's bonding capacity and as the ceiling for net limited assessed value.

Source: The source of this information is the District's financial records.

- Notes: 1) The District's general obligation bonds are subject to two limits: the Constitutional debt limit (total debt limit) on all general obligation bonds outstanding and the statutory debt limit on Class B bonds outstanding. The calculations of the debt margins are presented in detail for the current fiscal year only.
 - 2) Prior to FY17, net bond premium was restricted by amount and not subject to the statutory debt limit. Beginning with FY17, any additional net premium used for capital projects, bond counsel, printing and preparation of offering documents, a financial advisor, paying agent costs or to pay down debt is counted against both debt limits with the exception of amounts of premium deposited into the Debt Service Fund or a refunding escrow to pay interest payments.
